## Opportunities, Advantages, Attractions and Resources

---

New Bern was founded by the Swiss settlers in 1710 and for over two centuries it has enjoyed steady growth and increasing prosperity and happiness, which naturally blesses a community. Ideally located, made up of energetic, inventive and thrifty people, it is now rapidly growing in greatness; commercially, financially and in point of quickened civic spirit.

New Bern was named after Berne Switzerland, which means "Bear" in the Swiss language. The entire South is throbbing with a new and might energy and great development of her unbounded resources and opportunities. The commercial awakening of the South is very significant. It is claimed to be increasing at a rate conservatively estimated over \$7,000,000 a day. New Bern is splendidly playing its part in this theatre of progress and prosperity.

New Bern is located at the junction of two beautiful, deep rivers—Neuse and Trent—near the entrance of Pamlico Sound and 35 miles from the Atlantic Ocean. It is in the center of the great cotton, lumber and agricultural belt of the South Atlantic Seaboard. It is 87 miles northeast from Wilmington, 197 miles southeast of Raleigh, 171 miles South from Norfolk and 377 miles south of Baltimore.

New Bern is reached by the Atlantic Coast Line Railroad, the Norfolk Southern Railroad and by water. There is double daily service in all directions; only one hour's ride to the mighty Atlantic, 6 hours to Norfolk, 10 hours to Richmond, 15 hours to Baltimore and 19 to New York.

New Bern has unsurpassed climatic conditions. A happy medium between the blizzard beaten and drouth scorched North, West and Northwest and the enervating climate of the South. It is only 57 miles from the Gulf stream, insuring a mild and delightful climate the year round—abundant sunshine, moderate temperature and an ample and well distributed rainfall. Mean annual temperature 63; annual rainfall 55 inches.

New Bern owns its water works system and electric light plant. It has 9 miles of sewers, 25 miles of paved sidewalks, 11 miles of paved streets and other modern conveniences in keeping with cities twice the size.

New Bern has an excellent health record. The death rate is as low and longevity as great as any place in the State. Drinking water is supplied from deep artesian wells, is wholesome and under sanitary regulation. A modern sewerage system is in operation.

New Bern has four banks, with combined capital and surplus of \$700,000 and deposits of \$5,000,000. It also has a Morris Plan Bank and two building and loan associations. Banking institutions are the backbone of a community. No banking houses in the State look after the interest of their depositors more considerately and liberally than do the banks of New Bern. Well conducted banking houses are one of the greatest assets a growing community can possess and New Bern has them. In three Unites States Liberty Loan campaigns for prosecution of the war against Germany the New Bern banks subscribed one million two hundred and fifty thousand dollars, which was a large over-subscription.

New Bern is noted for the manufacture of the celebrated North Carolina pine lumber, as well as other varieties for which it is famous. Several of its mills are the largest and and best equipped in the country. New Bern ranks first in the production of lumber in North Carolina, producing approximately 200,000,000 feet annually.

New Bern is the second largest fertilizer manufacturing center in the State, the annual output being near 100,000 tons.

314894

New Bern also has a large cotton oil mill and factories manufacturing boilers, machinery, boxes, barrels, agricultural implements, etc. It also has the Norfolk Southern Railroad shops.

New Bern has first class mercantile establishments that carry a full and complete line of goods. They are guided in their dealings with the public by courtesy and service. New Bern has the largest department stores in Eastern North Carolina

New Bern is well equipped with a full modern school system, most efficiently administered by Prof. H. B. Smith, the superintendent, and a corps of able assistants. New Bern is proud of its educational advantages.

New Bern is blessed with a full complement of churches of practically all denominations. The Methodists, Presbyterians, Baptist, Disciples, Episcopalians, Roman Catholics, Hebrews and Christian Scientists all have their houses of worship.

New Bern has a good system of government, which is economically and efficiently administered.

New Bern has two daily and two semi-weekly newspapers that are ably managed and edited and which are superior in general make-up to papers published in much larger cities.

New Bern is surrounded by most excellent hunting and fishing. There are 30 square miles of water for boating and fishing within 16 miles of the city. All kind of game are to be found in the woods around. The New Bern section offers the greatest pleasure to sportsmen. The fish and oyster market of New Bern is widely known.

New Bern has the greatest national advertiser in the Pepsi-Cola Company, which uses 64,000,000 bottles labels and crowns annually, with New Bern printed on them, and which are distributed throughout the country.

# Index to Advertisements

Reference is especially invited to the following alphabetical list of responsible, enterprising, advertising business men. The more you patronize them the better we can make the New Bern Directory; your attention is also invited to the names in **DISPLAY BLACK TYPE** throughout the book of those who take pride in sustaining the city directory, and who do not borrow their neighbor's directory.
